Hi Stephanie,

In the email I sent you on Friday (7/31), I had noted that we disagreed with one of the edits on the last page of the document (under § 97.931) and used tracked changes to show how we believe the instruction needed to be corrected. The version of the document you sent me today left out that edit we made- was it left out by accident or does the omission mean that OFR disagrees with our edit? I used the comment feature to make note of this. Other than this, all other changes are approved.

Thank you,

Dayana Medina

Hello,

Please see highlighted email below and attached file from OFR. If you agree with them, please reply by noting the changes are "approved." For the edits you are not in agreement with, use the "comment" feature.

Do not "accept" nor "reject" any of OFR's changes, please keep in redline/strikeout.

Let me know if you have any questions.

Thanks,

Hi Stephanie

In looking this over I found some more – which I am going to make you guys fix. Everywhere you reference “section 51.308” – is this CFR or US Code? If it is CFR you MUST use the section twist unless it starts a sentence. I think there are a lot of them so ...

Also, any place you have C.F.R. instead of CFR, anywhere you use 40 CFR § 51.308 instead of 40 CFR 51.308 (no section twist), you need to fix.

Otherwise, I think I was looking at 97.911 when I put the comment on 97.910 and I simply deleted the text moved from the Summary based on Dayana’s comment.

Hello Stephanie,

I apologize it took a couple of days to get back to you, as I had to consult with CAMD and OGC on a couple of OFR’s edits. We approve the edits from OFR with the exception of the very last edit (in the regulatory text section)- we used the “comment” feature to provide an explanation.

Thank you,

Dayana Medina
